

PRESIDENT'S CORNER

Isn't it hard to believe that summer is almost behind us and fall is appearing all around? I trust that you have had a good summer. Of course all you football fans will be delighted as your favorite team takes to the field and you can root them on to victory.

One of the libraries fall activities is to promote the One Book, One Community book which is *People of the Book* by Geraldine Brooks. We encourage people to read this book during September and October. On Thursday, October 1 at 7pm, you can join the book club for discussion.

Further into the fall season we will be mailing our annual solicitation letter asking the community to help support the operating expenses of the library. Those mailings should be out around the first of November. Due to a reduction in state funding to the libraries, the financial support we receive from the community will be more important than ever to maintain the standards we have established.

The library is here for your use so please take advantage of all the books, music, books on CD and tape, DVDs, videos, free Internet, magazines, and the interesting programs that are offered.

Happy Fall!

Lona Full
President
